

CONSOLIDATED FIBERS

NEW!

Consolidated Fibers has developed a staple fiber from Ingeo™ PLA biopolymer

WHAT SETS US APART:

Consolidated Fibers presents the best value in PLA staple fiber delivered in North America. PLA has been known for many decades, but has been relatively unaffordable. Consolidated Fibers can now bring cost down to where having an environmentally friendly raw material does not have to be cost prohibitive. Our fiber represents a WIN-WIN-WIN opportunity...

WIN for consumers
WIN for suppliers
WIN for the environment

APPLICATION: Initial product designed for wipes, medical, diaper, feminine hygiene and interlining

CHARACTERISTICS:

- **Affordable**
- **Compostable**
- **Excellent processing**
- **Soft & comfortable**
- **Good moisture transport**
- **Low odor retention**
- **Hypoallergenic**
